

## Fabulous 5 of Book Reading

# SMART

Share a book every-day.

1

Make it fun: don't expect them to finish the book if they don't want to.

2

Ask questions: make connections to the child's life throughout the story.

3

Re-read the same books over and over to help your child learn new words.

4

Track the words with your finger so they see where you are reading.
